

## We're happy that you are attending Camp Otterbein

**Welcome!** We are excited to have you at The West Ohio Conference's Camp Otterbein in Logan, Ohio. We strive to provide hospitality toward a spiritual, relational and recreational experience.

To ensure your camp experience is a pleasant one, we want to make you aware of some important details to prepare you and our staff for your arrival.

**We require masks are worn during Check-In, Check-Out, inside shared space buildings, when camp staff are present or leading an activity, and when you are interacting with others not in your cohort. Please be mindful to keep social distance when possible. Special cohort groups and scenarios may be planned by your retreat leader and camp staff. There is much more information posted about health, safety, cancellations, and refunds on our webpage, [www.westohiocamps.org](http://www.westohiocamps.org)**

**Health Checks:** Upon arrival at camp, attendees will be checked in by the retreat leader and questions on the Self Health Assessment will be asked and temperature checked. Attendees must be clear of all COVID-19 symptoms at the time of arrival. Each attendee will have their temperature checked and symptom screening at least once daily by the retreat leader. Any onset illness throughout the event should be brought to the attention of the retreat leader where next steps will be taken along with camp leadership staff.

**Lodging:** Individuals are asked to sleep head to foot between beds and space out as much as possible. Our cabins and retreat lodges are heated and air-conditioned with bunk beds in twin mattress size. Please plan to bring your own bedding. Retreat Lodges have restrooms in the building (shower, sink, toilet) in each wing. Cabins utilize the nearby shower houses. If you are staying in our Pine Center, the bedding and linens are provided, and 2 full restrooms are in the building. If you are staying in our Treehouses, these are rustic and remote to a purpose with no use of electric or running water. In the summer months, portable restrooms are utilized. Beds are aluminum frame cots, please plan to bring bedding.

**Programming:** If you are participating in a camp staff led program or activity, please provide your group leader with a signed **Camp Otterbein Release of Liability Form** either for yourself or signed by your parent/legal guardian. Please dress for the weather, most activities at camp can continue with mild weather (rain, heat, cold). We will work toward alternate options with the group leader should activities need to be postponed or cancelled for any reason.

**Medical/Dietary Needs:** Please be in contact with your retreat group leader about any special medical or dietary needs which would need to be passed along to our camp staff. If there are special dietary restrictions or food allergies, we will do our best to accommodate and work alongside you. Please provide this at least one week prior to your event.

**Emergencies:** Please be in touch with your group leader for emergency contact procedures. If the group leader cannot be reached, you may contact the Camp Otterbein office and leave a voicemail at 740-385-5712 or the West Ohio Conference camping office at 614-781-2630. We have an AED on site and 911 emergency services available in the nearby town of Logan.

**Lodging Practice:** In response to the increase of bed bug infestations nationwide, where Ohio is one of the most prevalent states, we at Camp Otterbein are choosing to take an active approach to ensure that these pests are not derailing the great experiences that happen while at camp, and that only positive memories are brought home. We are here to work with you through this prevention method. Prior to your arrival and after each overnight group, cabins are cleaned and inspected and include

regular preventative measures taken by a licensed professional.

**Start a good practice** for you and your family when travelling to any destination. Upon returning home, unpack directly into laundry machines. A cycle in a household dryer at high temperatures kills any potential bed bugs and their eggs. If you would like further information, feel free to view the EPA's website at [epa.gov/bedbugs](https://www.epa.gov/bedbugs)
